Installation Recommendation

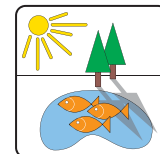

Maximum pond volume in full shade with waterplants and fish stocks up to 25cm (10") of fish per 500 litres (100 gallons).

Maximum pond volume in full sun or partial shade with waterplants and fish stocks up to 25cm (10") of fish per 500 litres (100 gallons).

Maximum pond volume in full shade with koi or fish stocks up to 50cm (20") of fish per 500 litres (100 gallons).

Maximum pond volume in full sun or partial shade with koi or fish stocks up to 50cm (20") of fish per 500 litres (100 gallons).

Flow Recommendation

The flow through the filter should be approximately 50% of your pond volume every hour. e.g. For a 5000 litre (1000 gallon) pond, you will need a flow of around 2500 l/h (500 GPH).

Clear Water Guarantee

Provided that Fish Mate UV+Bio Pond Filters are operated in accordance with the recommendations and the instructions supplied, Pet Mate Ltd. guarantee clear water visibly free from suspended algae.
